- **<https://github.com/shed2607>**

### SUMMARY

---

*Experienced software developer proficient in JavaScript, TypeScript, Python, Java, C#, and Dart. Skilled in frameworks like React Native, Next.js, Node.js, Django, ASP.NET Core, and Flutter. Strong in Git, MongoDB, Firebase, and Redux. Dedicated to delivering high-quality solutions for web and mobile applications.*

### EDUCATION

---

**American University of Nigeria, Yola**

**2023**

*Bachelor of Science, Computer Science  
Relevant course work:*

- *Dean's List, Fall, 2021*
- *PetERP(Mobile), An ERP application tailored for a school - Final Project*

### PROFESSIONAL EXPERIENCE

---

**Cozsa Technologies, Ibadan**

**January 2023 -  
Present**

*IT consultant and software development*

- Increased client satisfaction by providing timely and effective troubleshooting support for various technical problems.
- Made recommendations and performed upgrades, assisting businesses in technology planning aligned with growth projections.
- Provided training sessions on new technologies and best practices, enhancing team members' knowledge and skills in the field of IT consulting.
- Established strong relationships with vendors for cost-effective sourcing of cutting-edge hardware and software solutions that met clients' needs effectively.
- Discussed project progress with customers, collected feedback on different stages and directly addressed concerns.

**Epsilon Development Labs, Lagos**

**March 2023 -  
September 2023**

*Full-stack Mobile developer*

- Collaborated with cross-functional teams to develop innovative solutions for complex client requirements.
- Implemented robust security measures to protect sensitive user data and ensure compliance with industry standards.
- Streamlined app development process by adopting agile methodologies, resulting in faster project completion.
- Contributed to the successful launch of several mobile applications, generating significant revenue growth for clients.
- Integrated third-party APIs to enhance application functionality and create seamless user experiences.
- Worked closely with UX/UI designers to translate wireframes into functional prototypes, ensuring consistent visual design across all platform versions.
- Presented progress reports to stakeholders regularly, providing transparency into project status

*Residential Assistant*

- Facilitated conflict resolution between residents when necessary, promoting a harmonious living environment for all occupants.
- Contributed to staff meetings, sharing progress reports and providing suggestions on potential operational improvements.
- Assisted with move-in and move-out processes, ensuring smooth transitions for new and departing residents.
- Enhanced resident satisfaction by addressing concerns and resolving issues in a timely manner.
- Logged and filed incident reports, detailing significant occurrences during assigned shifts.
- Attended continuing training sessions on Fire fighting and conflict control techniques and methods.

## PROJECTS &amp; EXTRACURRICULAR

**Notes APP****May 2024**

- JWT Authentication: Enhance the security of your API endpoints with JWT authentication.
- MongoDB Integration: Seamlessly manage your blog data with MongoDB, ensuring scalability and flexibility.
- Intuitive Endpoints: Perform CRUD operations on posts, comments, and user profiles effortlessly with well-structured endpoints.
- Real-time Updates: Implement real-time notifications for instant user engagement and interaction.
- Frontend in React Native: Develop a responsive and user-friendly frontend using React Native, ensuring a seamless mobile experience.
- Technologies: Node.js/Express for the backend, MongoDB for the database, and React Native for the frontend.

**Maintenance Report API****April 2024**

- JWT Authentication: Secure your API endpoints with JWT authentication for enhanced security.
- MongoDB Integration: Seamlessly manage your blog data with MongoDB, ensuring scalability and flexibility.
- Intuitive Endpoints: Easily perform CRUD operations on posts, comments, and user profiles with well-structured endpoints.
- Real-time Updates: Implement real-time notifications for instant user engagement and interaction. Technologies- NodeJS/Express for the backend and Mongo dB for the database

**Blog API****February 2024**

- JWT Authentication: Secure your API endpoints with JWT authentication for enhanced security.
- MongoDB Integration: Seamlessly manage your blog data with MongoDB, ensuring scalability and flexibility.
- Intuitive Endpoints: Easily perform CRUD operations on posts, comments, and user profiles with well-structured endpoints.
- Real-time Updates: Implement real-time notifications for instant user engagement and interaction. Technologies- NodeJS/Express for the backend and Mongo dB for the database

**Restaurant Food and Drinks Menu APP****November 2023**

- Real-time Updates: Linked to Firebase for instant menu updates.
- Food and Drinks: Explore a wide variety of food and drink options.
- Presentation: Beautifully presented menu items.
- User Interface: Sleek and intuitive interface for an enhanced dining experience.
- Technologies- Flutter for the frontend and firebase for the backend

## SKILLS

**Programming languages:** JavaScript, TypeScript, Python, Java, C#, Dart, SQL**Frameworks:** React Native, NextJS, NodeJS, Django, ASP.NET Core, Flutter, PostgreSQL, MySQL, MongoDB**Tools & Technologies:** GIT, Firebase, Redux, Vercel, Render, Postman, VSCode, WIX
